Copy of Patent

1. The original patent, or an affidavit or declaration as to loss or inaccessibility of the original patent, must be received before this reissue application can be allowed. See 37 CFR 1.178.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claim 67 is rejected under 35 U.S.C. 102(b) as being anticipated by Jones et al. (4,433,496).

Jones et al. discloses a lock having all of applicant's claimed structure including a opposite front 36 and rear (considered the area of C-clamp 26 that opposes areas 20 & 21) bearing faces wherein the front face is adapted to oppose the boss (considered the mounting area of lip 10), and the rear face is adapted to oppose the wear member 16 to maintain the coupling of the wear member to the boss, with an adjustment assembly 33 for selectively varying the relative positions of the front and rear bearing faces. Jones et al. further discloses a projection (considered the top & bottom outer sections of the C-clamp 26)

that cooperate with a keeper structure (considered faces 24 & 25) to hold the lock in the opening in the wear member as shown in figure 1.

Allowable Subject Matter

4. Claims 1-66,68-73 are allowed.

Response to Arguments

5. Applicant's arguments filed 13 regarding claims 67 & 69 have been fully considered but they are not persuasive. Applicant argues that the surface of the C-clamp that opposes areas 20-21 does not bear on any other surface and therefore Jones et al. '496 does not anticipate claim 67. Applicant's arguments however are more limiting themselves as applicant claims a bearing surface, but does not claim that the bearing surface bears on or touches any specific member while it is installed.

final Rejection

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire

Serial Number: 09/368503

on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
